Fibach[®]
SPRINGS

#1 CHOICE OF MOTORSPORT CHAMPIONS WORLDWIDE!

EIBACH SPRINGS | Quality Unsurpassed

PERFORMANCE PERFECTED

- Precision Tolerances—The Tightest in the Industry
- Ultra-Lightweight, for Reduced Unsprung Mass
- Maximum Deflection in Combination with Smallest Block Heights
- Precision Planparallel and Square End Configurations Under Unloaded and Loaded Conditions
- Lowest Side Loads with Load Center Ideally Located Relative to Spring Axis
- Exceptional Block Resistance and Durability

Eibach makes the finest performance springs in the world. Period. When other springs sag, wear out, or create sketchy handling or a bone-crushing ride, top motorcycle tuners—like top race teams—inevitably turn to Eibach. And, also inevitably, wonder why they didn't choose Eibach in the first place.

To produce springs with unparalleled precision and repeatability, Eibach uses the world's finest Hi-Ten spring steel, produced to exceedingly precise tolerances. We use world-renowned German CNC coilers, as well as many machines engineered and built specifically by Eibach. In short, we use state-of-the-art technology, in every step of the manufacturing process.

But it's not just about machines and technology; it's about people. Most notably, the Eibach Springmeisters, working at production plants in Germany and the USA: Talented, expert craftsmen, each committed to creating the finest motorcycle springs in the world.

Performance Perfected.
